

Specialty Turntables

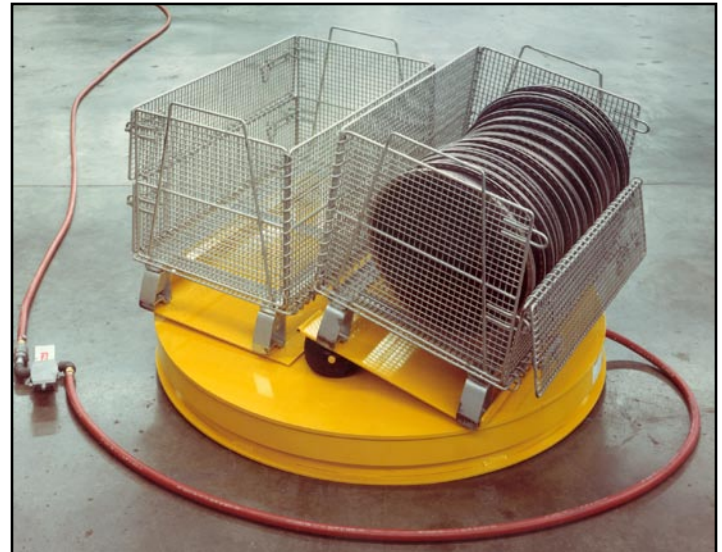

Hovair Systems has been at the forefront of turntable manufacture for over thirty years, and with this much experience we are the first choice for many major manufacturers requiring turntables for their industry.

Specialty turntables are available in many styles, shapes and sizes, and with many options to choose from. Now you can turn those time-consuming manual tasks into exciting, labor-saving automation which will cause less fatigue for your workers and almost certainly boost your productivity levels.

Here are some of the features available with Hovair Systems specialty turntables:

- ▶ Diameters up to 25 ft. - circular, oval, four-sided
- ▶ Weight capacities to 24 tons - more on request
- ▶ Custom built to your specifications
- ▶ Surface mounted or shallow pit ring
- ▶ Variable speed control - 1 to 20 rpm
- ▶ Easy to use pedestal control or foot control
- ▶ Air bearing powered or electro-mechanical (120v)
- ▶ Optional forklift pockets for multiple location use
- ▶ Environmentally friendly - great for cleanroom use
- ▶ Anyone can use them - guys and gals alike
- ▶ Increase productivity levels - decrease fatigue
